

ELK Learning Academy

A California Independent K-12 Homeschool Academy

E.L.K. = Excellence • Leadership • Knowledge

To help fulfill the additional 17 instructional days required in our school year, students or parents will complete this learning log to document qualifying educational activities completed outside of ELK's scheduled instructional assignments. Once a student accumulates 4 hours of qualifying educational activity, one instructional day is considered complete.

Please do not record ELK instructional assignments or regular classroom work on this form. This log is intended for educational experiences not directly provided through ELK, such as: sports, sewing, Bible study, music lessons, physical education, clubs, volunteer activities, community experiences, and other meaningful learning opportunities

Sample is below
